#### Intellectual Output N.4

“UPRAISE Toolkit for Successful Online Campaigns & Petitions” is an instrument that can allow any youth worker to understand the principles of how social media works. The toolkit provides them with all the necessary means to run a successful online campaign regarding issues that affect the youth and our society. The goal is to mobilise young people and motivate them to actively advocate for the causes they believe in.

The Toolkit can be found in the form of portable file and online publication on the project website and all related platforms. In order to make the handbook more accessible to a wider audience, a video with the professional software Powtoon was created and uploaded on the project’s website.

As an example of good practice, our social media campaigns were run on the Facebook page “UpraiseEU”.

The topics included:

- Human rights – “**Right to Education**” Campaign
- Climate Change: “**Climate Change is Real**” Campaign

- Gender-equality in young children: “**Beyond Pink and Blue**” Campaign
